Gurpreet Singh

Lead Data Analyst & BI Solutions Engineer

gurpreet.102@gmail.com | +91-9911990116 | Delhi, India | gurpreet.dpdns.org | gurpreets102

Summary

Lead Data Analyst & BI Solutions Engineer specializing in Power BI, advanced DAX, SQL, and star schema data modeling. Combining a strong foundation in client facing operations and technical support with enterprise data architecture, I build live MySQL connected reporting systems that replace static spreadsheets and drive executive decisionmaking.

Experience

Blackmelon Advance Technology Co. Pvt. Ltd.

Senior Data Analyst & BI Solutions Engineer — Oct 2023 – Sep 2026

- Built and owned end-to-end Power BI architecture and replaced manual weekly/monthly Excel compilation with live MySQL to automated 10+ executive dashboards serving C-level leaders, eliminating reporting delay and multi-department discrepancies.
- Engineered star-schema models and wrote advanced DAX measures (time intelligence, dynamic KPIs, calculation groups).
- Wrote complex SQL queries involving window functions, CTEs, multi-table joins, and backend query optimization to clean high-volume operational logs before front-end rendering.
- Partnered with executive teams to create data-backed pitch decks supporting partner discussions and strategic growth.

Technical Business Analyst & Systems Specialist — Jan 2021 – Sep 2023

- Acted as the bridge between business partners and developers, gathering functional requirements and managing Jira user stories and sprint lifecycles.
- Executed ad-hoc backend SQL extraction using complex joins and nested subqueries to extract custom datasets and troubleshoot complex CRM workflow issues.
- Conducted user acceptance testing (UAT) and post-release walkthroughs for regional partners.

Operations & Partner Onboarding Specialist — Mar 2019 – Dec 2020

- Managed end-to-end partner onboarding and technical training to over 50+ partnered service hubs and multiple SaaS brands.
- Provided first-level (L1) CRM support acrss and gathered initial user feedback to streamline technical requirements gathering.

Directorate of Education (GNCT, Delhi) / ICSIL

Technical Support Executive — Jan 2014 – Jun 2018

- Automated financial calculations and budget reconciliation reports using advanced Excel utilities and pivot tables.
- Created data-backed PowerPoint presentations and provided technical support for office staff.

Projects

PAN-India TAT Tracking Engine

Built a live Power BI system connected to a MySQL backend for multi-zone footprint covering 100+ cities and high-volume ticket data, tracking service requests from zonal trends down to city details, utilizing custom DAX for exact turnaround times and SLA achievements.

Enterprise Financial Reconciliation Model

Developed a monthly P&L consolidation dashboard featuring dynamic Actuals vs. Budget variance intelligence across multiple business units, customized waterfall margin bridges, and hierarchical DAX matrix reporting.

Field Technician Productivity & Mapping

Developed field operational workforce dashboard tracking across 100+ service technicians, mapping call completion rates, daily productivity, inventory consumption, and geospatial map pins for technician coverage.

Technical Skills

BI & Visualization Tools

Power BI (Desktop & Service), Tableau, Calculation Groups, Interactive Dashboards, MS PowerPoint

Data Engineering & Querying

SQL (MySQL), Advanced DAX (Time Intelligence, Dynamic Measures), Star-Schema Modeling, Data Warehousing, Advanced Excel

Operations & Delivery

SaaS Client Onboarding, Jira Ticket Lifecycle, Requirement Gathering, Bug Triage, User Training, UAT Testing

Certifications

Reports & Dashboards using Power BI

Mastering Excel for Data Analysis

SQL Fundamentals

Education

GGSIP University 2008 – 2011
Information Technology · Bachelor of Computer Applications (BCA)

S.L.S.D.A.V. Public School 2006 – 2008
CBSE Curriculum · Higher Secondary Certificate (10+2)

S.L.S.D.A.V. Public School 2005 – 2006
