GURPREET SINGH

gurpreet.102@gmail.com (+91)-9911990116 Delhi, India

PROFESSIONAL SUMMARY

Results-driven Business Intelligence & Data Operations Specialist with over 7 years of experience in data querying, reporting architecture, and SaaS platform management. Proven expertise in writing complex SQL queries, designing automated Power BI dashboards for executive decision-making, and troubleshooting data issues. Skilled in bridging technical teams and business stakeholders, leading client onboarding, and optimizing system workflows to improve reporting accuracy.

PROFESSIONAL EXPERIENCE

Blackmelon Advance Technology Co. Pvt. Ltd

Product Operations & Data Manager

03/2019 – Present

- BI & Executive Dashboards: Designed and deployed interactive Power BI dashboards connected to SQL database backends to give executive leadership real-time visibility into key performance metrics.
- SQL & Data Querying: Wrote and executed advanced SQL queries to extract, clean, and transform large datasets for cross-departmental reporting and analysis.
- Data Accuracy & Troubleshooting: Conducted root cause analysis on system bugs and data discrepancies, establishing validation practices that improved overall reporting accuracy.
- Client Onboarding & Enablement: Led end-to-end technical onboarding for new SaaS clients, setting up backend data structures and delivering user webinars to drive system adoption.
- Cross-Functional Collaboration: Partnered closely with internal product, operations, and leadership teams to translate business requirements into functional features and reporting solutions.
- Executive Support: Assisted C-level executives with strategic business presentations, market research, and integrating AI tools to streamline operational workflows.

Directorate of Education (GNCT, Delhi)

Admin Executive

01/2014 – 07/2018

- Data Analysis & Reporting: Created custom Excel utilities using advanced formulas and pivot tables to automate financial calculations and budget reconciliation reports.
- Visual Presentation: Prepared graphical PowerPoint presentations and data reports for leadership by linking multi-source data inputs.
- Technical Support: Managed administrative operations and provided technical troubleshooting support for office staff.
